

# Quick Start Guide

SNAP  
Controller | Vacuum oven

## Before Hand

When working with Vacuum oven make sure your oven is set with **Vacuum** fully open and **Vent** fully closed

1 Connect system

2 Connect vacuum

3 (Optional) Connect Vent to nitrogen or other inert gas or leave open to air

4 Plug in and power on

5 Select Set point as shown (or other options such as Mode or Recipe and play)

6 Control at Set point (or run Recipe, Vent, Close or Open valves) at a button's touch!
